# Bandit OTW Walkthrough Write-Up
Level : 1

Step 1:

- Make sure you used the password from the previous level (Level 0 > 1) to login to bandit2 (level 1 > 2).

Step 2:

I used the ls command to display all files in my home directory. I found the only file in my home directory was named "-". To read what was inside of the file, I used cat./"-"
(In order to read files that start with a dash, you have to redirect them to stdin with the < operator).

```
bandit1@bandit:~$ ls
-
bandit1@bandit:~$ cat ./"-"
rRGizSaX8Mk1RTb1CNQoXTcYZWU6lgzi
bandit1@bandit:~$ 
```
